Appendix

Documentation Request (1/2)

The table below describes the categories of documentation Gartner will find useful to start our work on the Project. As we conduct our discovery, analysis, and planning activities we will identify and request additional documents.

Category	Documentation
Organization	• Current OITS organization chart and any supporting documentation • Current State of Kansas agency organization charts and any supporting documentation • Employee roster (names can be redacted, including functional role, corporate title, sub-organization information, tenure, etc.) • Job architecture (family) reference documentation • Sample intake forms
Architecture	• Enterprise Architecture material (including Business Capabilities map and Technology Standards) • Application inventory which includes name, overview, business functions it supports, business owners, IT application manager • List of mission-critical applications and associated documentation • Any existing IT application landscape documentation which cover the high-level interaction between applications (e.g., architecture diagrams, data flow diagrams, application portfolio, infrastructure architecture, etc.) • Inventory of Technology platform and IT tools to support business applications • Any data management strategy and data management documentation which cover data domains, data owners and data governance and data lineage • Any integration strategy document which covers integration architecture, tooling and list of interfaces • Any Service Catalog documentation which include descriptions, service owners, vendor details, agreements, licenses and associated costs
Financial	• Account and department code lists and definitions • Agency listings with financial lead/POC • Site list: IT delivery and Supported locations • A template will be customized based on leadership input and provided to financial leads to facilitate gathering the following data: ○ IT Budget and Supporting GL data by agency ○ IT Staffing data ○ Workload volumes: e.g., Server instances (Physical and virtual), Storage (TB), Cloud (VMs and Storage), Desktop/laptop/other smart devices,- Service Desk Contacts Monthly

RESTRICTED

Documentation Request (2/2)

Category	Documentation
OCM & Communications	• Previous stakeholder identification and analysis results • Previous communications strategy and planning artifacts • Previous communications that have been distributed to stakeholders • Any organizational change planning materials
Cybersecurity	• Logical diagrams and documentation for the network architecture • Logical diagrams and documentation for the IT infrastructure architecture • Critical application inventory and asset inventory • IT and data Security and identity management policies and procedures • Descriptions of in-flight projects pertaining to network or security • Executive summaries of recent audit reports or incident investigations • Other Documentation that would assist Gartner in obtaining a complete picture of the organization's security posture
Initiatives & Misc.	• Details on in-flight or planned initiatives that may have an impact on the portfolio of IT projects • Prioritization criteria or guidelines • Resource plans for prioritized initiatives • OITS documentation or metrics on services provided to other agencies, e.g., licenses, data processing, telecom, service desk, etc.
